

Mikhail Medovnik

Senior Frontend Engineer

medovnikmv@gmail.com | Telegram: @medovnik | github.com/Mikhail-Medovnik | linkedin.com/in/mikhail-medovnik

Based in Yerevan, Armenia | Open to relocate: EU / UAE / Asia-Pacific

SUMMARY

Senior Frontend Developer, 5+ years in production. React, Next.js, TypeScript — high-load interfaces for two product teams: Stoloto (millions of users, real-time UI, Zustand, Canvas/SVG) and Align Technology (international medtech, English-only environment — 1.4M views and +437% demo requests from redesigning key products). Architecture experience: FSD, NX Monorepo. English-only work environment at Align Technology. Hands-on with AI-assisted development workflows: custom agent rules, integrating AI agents into the project (skills), and CI/CD automation (auto-generated GitLab merge requests). Actively seeking remote or on-site opportunities in EU, UAE or Southeast Asia (Vietnam, Thailand) and open to full relocation.

EXPERIENCE

Senior Frontend Engineer · Stoloto

Sep 2025 – Present

One of Russia's largest digital lottery & online gaming platforms · Remote

Stack: React, Next.js, TypeScript, Zustand, TanStack Query, NX Monorepo, Microfrontends, Canvas, SVG, WebSocket, Jest, RTL

- Led TypeScript migration across legacy modules, eliminating loosely-typed code paths and reducing runtime type errors — improved long-term maintainability of the codebase.
- Built a gesture-based number selection component (Android pattern lock style) for grid-based lottery games — reused across 5+ game mechanics without modification.
- Architected animation logic for high-load game fields with complex interaction states (element freezing, store sync) using Canvas and SVG.
- Led NX monorepo restructuring and microfrontend integration — improved build times and team autonomy across product streams.
- Built reusable UI component library and A/B testing infrastructure consumed by multiple product teams.

Frontend Engineer · Align Technology

Jul 2022 – Sep 2025

Global leader in digital dentistry — Invisalign® · Remote · English-only environment

Stack: React, Next.js, TypeScript, SCSS, Node.js, Express, PostgreSQL, Salesforce API, Jest, GitLab CI/CD

- Led full rebuild of itero.com — reached 1.4M views and 650K unique users in the first year post-launch.
- Built Lumina product landing page with Salesforce integration → +437% demo requests via UX improvement and conversion funnel optimization.
- Redesigned doctor-facing educational portal → 1.5x increase in active users and measurable page speed improvement.
- Optimized CMS SQL queries → cut content editor wait time by 60%.
- Set up GitLab CI/CD pipelines and unit test coverage for frontend services.
- Collaborated daily in an English-only cross-functional team (4 FE, 1 BE, 1 QA, 1 PM) across marketing, design, and product.

Frontend Developer · Auriga

Aug 2020 – Jul 2022

Global software engineering & R&D services · Hybrid · Promoted from Junior to Middle in under 1 year

Stack: React, Next.js, TypeScript, SCSS, Redux, Jest

- Migrated 4 client projects to TypeScript and Next.js — improved maintainability and onboarding speed.
- Built shared React component library — reduced duplicated code by 30% across 5+ client projects.
- Delivered pixel-perfect responsive interfaces for clients in fintech, logistics, and retail.

SKILLS

Core: React, Next.js, TypeScript (strict), JavaScript (ES2023+)

State & Data: Zustand, TanStack Query (React Query)

Styling: SCSS/CSS Modules, Tailwind CSS, Framer Motion

Testing: Jest, React Testing Library

Tooling: NX Monorepo, GitLab CI/CD, Storybook, Vite, Webpack

Backend / DB: Node.js, Express, PostgreSQL, REST, WebSocket

Other: Canvas/SVG, A/B testing infra, Headless CMS (Directus, Contentful), i18n, FSD architecture

AI-assisted development: Cursor, Claude Code (daily use) — custom agent rules/instructions, AI agent integration into project workflows, CI/CD automation (AI-generated GitLab merge requests)

LANGUAGES

English — C1 (fluent, daily work language) | Spanish — B2 | Russian — Native

EDUCATION

Bachelor's Degree · Don State Technical University 2009–2014
